PROFILE

Computer Science graduate specializing in Artificial Intelligence and Machine Learning with a strong interest in machine learning, natural language processing, and generative AI. Through academic projects and internships, I have developed practical experience in building RAG pipelines, AI-powered automation tools, and data-driven applications using Python. I am seeking opportunities where I can contribute to meaningful AI projects while continuing to grow as an engineer and researcher.

WORK EXPERIENCE

10/2025 – 04/2026 **Machine Learning Intern**

Unified Mentor Pvt Ltd, Hyderabad

- Developing and deploying Machine Learning models for real-world applications
- Working with Supervised, Unsupervised, and Reinforcement Learning techniques
- Achieved ~90% accuracy in classification model development

08/2023 – 09/2023 **Cybersecurity Intern**

Hunt Metrics Pvt Ltd, Hyderabad

- Developed proof-of-concept exploit for XXE vulnerabilities demonstrating SSRF attacks
- Performed vulnerability analysis and provided recommendations to improve system defences
- Delivered recommendations that reduced exposure to potential security risk by ~30%

EDUCATION

10/2026 – Present **M.Sc. Computer Science**

Universität Paderborn, Paderborn, Germany

Currently enrolled

11/2021 – 05/2025 **B.Tech in CSE – Artificial Intelligence & Machine Learning**

Lords Institute of Engineering and Technology, Osmania University, Hyderabad

GPA: 8.93 / 10

PROJECTS

Medical Query System (RAG Pipeline)

[\[LINK\]](#)

- Designed and implemented a RAG Pipeline for clinical and genetic disorder queries
- Integrated OpenAI GPT-4o-mini and text-embedding-3-small models
- Achieved approximately 95% answer relevance on a manually evaluated validation set

Research Assistant (MCP Server)

[\[LINK\]](#)

- Built a custom MCP server to ingest research papers, embed content with OpenAI embeddings, and query via ChromaDB.
- Integrated ArXiv and Web Search connectors with citation tracking for real-time research insights.
- Designed a modular, scalable architecture for seamless front-end integration (Claude Desktop).

Job Alert AI Agent

[\[LINK\]](#)

- Developed a Python-based AI Agent connecting Gmail to WhatsApp via Twilio.
- Integrated Gmail APIs, OpenAI APIs to automate job email summarization and delivery
- Implemented a Gmail client to fetch and parse emails using robust multipart handling for both plain text and HTML content.

SKILLS

Programming Python

Frameworks PyTorch, TensorFlow, Scikit-Learn, Hugging Face, LangChain, Streamlit

AI/ML Expertise Machine Learning, Deep Learning, NLP, Generative AI, RAG Pipelines, Agentic AI

Tools Git, Matplotlib, ChromaDB, MS Office, Prompt Engineering

LANGUAGES

English Fluent

German A2

CERTIFICATIONS

Machine Learning Specialization — DeepLearning.AI
